

## **St. Joseph's Lenten Project 2010**

You are invited to bring *hope* by *remembering* a *family* in New Orleans who has been homeless for four years after hurricane Katrina and to *children* in Haiti who lost their school during the recent earthquake.

The Daughters of Wisdom are trying to find a temporary place for housing and to hold classes so that they can bring back their deaf and deaf blind students who returned home after the earthquake. It is so important to provide some type of stability for the children who have lost so much in this tragedy. Your donation will help them to rebuild their school.

### ***St. Bernard Project***

Inspired by the residents of St Bernard's Parish and their collective spirit, openness and fierce desire to rebuild their lives and community, Zack and Liz decided to create The St. Bernard Project. This Project rebuilds homes for senior citizens, families with children and persons with disabilities whose homes were destroyed and rendered uninhabitable.

As we continue our Lenten Journey, let us try to assist in whatever way we can.
